FIGHTING RENEWED

TURKS REFUSE TERMS DEMAND-
ED BY BALKAN ALLIES.

Constantinople, Nov. 21.—The battle at the Chatalja lines has been resumed. Cannonading was reopened with great violence this evening and is plainly audible here.

The terms offered by the Balkan allies for the arrangement of an armistice are "unacceptable" to the Ottoman government.

Nazim Pasha, the Turkish Commander in Chief, has been instructed to continue military operations until more acceptable conditions are offered by the allies, but at the same time he is intrusted with the further negotiations.

The official announcement of the port's decision with regard to the armistice is as follows:

"The Bulgarian Premier has addressed to the Ottoman government a document containing conditions for an armistice, which were communicated to the council of Ministers and were considered to be unacceptable.

"Consequently and likewise in view of the fact that the Commander in Chief has been intrusted in principle with the task of negotiating conditions with plenipotentiaries of the belligerent states—if these are invested with the necessary powers—and has also been directed to communicate the result of such negotiations to us, the commander in chief has been instructed to continue military operations, with the help of the Almighty, until reasonable and moderate conditions are proposed to us."

It is said that the Bulgarian conditions included a demand for the surrender of Adrianople and Scutari, the withdrawal of the Turkish fleet from the Black Sea and the cessation of the dispatch of troops to Chatalja and the building of fortifications.

Gen Shukri Pasha, military commandant of Adrianople, has received the title of "ghazi" which means "victorious recognition" of his splendid defense.

An official dispatch from the captain of the cruiser Hamidieh, which was attacked by Bulgarian torpedo boats to the Black Sea this morning, says he sank two of them and damaged the third, which was able to draw away.

"When at a distance of 2,000 yards the third torpedo boat discharged two torpedoes, inflicting slight damage on us. We eventually obliged her to withdraw out of range of our guns," says the dispatch.

CARNEGIE WILL

PENSION EX-PRESIDENTS

New York, Nov. 21.—Future ex-presidents of the United States are to be pensioned in the sum of \$25,000 each, annually, by action of the Carnegie Corporation of New York today. The grant is provided for with the idea of enabling former executives of the Nation to devote their unique knowledge gained in public affairs to the public good, free from pecuniary care. A similar amount is to be paid widows of ex-presidents as long as they remain unmarried.

The pensions are to be promptly offered to the ex-presidents or their widows, so that no application will be required from them. Payment is to be continued so long as the recipients "remain unprovided for by the government."

Davis Will File Contest.

Oklahoma City, Ok., Nov. 21.—The campaign organization of John J. Davis of Chandler, defeated Democratic nominee for congress from the First District, is working up evidence to be used in a contest before the next house of representatives. It is claimed that 1,000 negro votes were illegally cast in Lincoln, Kingfisher and Logan counties. McFarlane's majority was a little over 500.

SHAKING HANDS WITH

A BIG HORN OWL

A. L. Beck, Clifton Hurst and Murrell Matthews made a short hunting trip yesterday and captured one of the finest specimens of the horned owl family ever seen in this section. The bird was only stunned by a single shot that hit him, and it was decided to present him to the normal for the natural history museum. Accordingly he was wrapped up in an old coat and chicken into the auto and brought to town.

Maddox reached his hand down to see what was in it. Mr. Owl was wide awake and in a savage frae of mind by that time and met the hand with a firm grip of one of his feet. Our claw pierced Mr. Maddox's wrist much in the manner of a fish hook, and two fingers were slightly damaged by another claw. Fortunately, however, the bird then calmed down and released his hold.

The owl will probably be mounted and other specimens in the interesting biological museum of the normal.

Right there is where the fun begins. Mr. Beck says that his son Marshall and Frank Maddox borrowed the machine for a few minutes. He cautioned them to let the mysterious package alone, but refused to say anything about its contents. Naturally that whetted their curiosity, and

R. E. Briens and L. E. Mitchell left Thursday afternoon for Oklahoma City where they will be initiated into the mysteries of the Shrine. Dr. Holley accompanied them to see the work well done.

The Sunday Star had a headline which read "Bull Moose will eat Turkey." Thought crow was the diet prescribed for both the B. M. and Elephant Nov. 6th.—Muskogee Press.

A railroad contractor recently advertised for three hundred wooden sleepers. By return post he received a letter from a neighboring clergyman, offering him the whole of his congregation.—Commercial Appeal.

With a pension of \$25,000 per year waiting for them when they retire from the presidency, aspirants to that high office will have all the more incentive to enter the race and the young American all the more inspiration to strive to reach the White House.

The Wilson landslide and Bull Moose rebellion did not affect Zapata county, Texas, for as usual every vote in the county was cast for the regular Republican ticket. Wilson will have to import Democrats from other localities to fill the postmasterhips of Zapata county.

Citizens of Sulphur, Ada, Roff, Mill Creek and Ravia have quit asking, "Where is Hickory?"—Hickory Journal.

Of course they have. Mrs. Johnson and her Hickory Journal have put the town on the map. Nothing like a live paper to bring a place to the front.

The Francis Wigwam complains that the yeggmen, who tried to rob the bank at that place last week did not treat the paper fair. They selected Wednesday night for the job and the paper had to go to press too early next day to give a full account of it. Yeggmen should be more considerate of the papers.

In view of the recent decision of the federal court that it is not a violation of the federal law to transport

liquor from the west side of Oklahoma to the former Indian Territory, Oklahoma City will probably be made the chief source of supply instead of Kansas City and Dallas as heretofore.

Both Republican and Bull Moose papers declare that the Solid South must be broken up, and they try to map out plans for accomplishing that end. Reminds one of the fable of the council of mice which resolved that the cat must be belled. The only thing faulty about the resolution was how to carry the resolution into execution without the cat's concurrence in the plan.

Gov. Cruce in his message declares that no town in which a state normal is located maintains a high school. Evidently his information is rather meager, for Ada maintains ten grades and the state is out very little in educating children in the normal who should be in the public schools. Perhaps his information regarding other phases of the educational system of the state is just as faulty as in this case.

Spokane dogs that are down on their luck will be tenderly nursed back to health instead of being chloroformed, directors of the Spokane Humane Society having established an emergency hospital for the care of injured canines. The first "patient" was a pointer that had been shot in the head Dr. Frank H. Mason, manager of the society, removed the bullet and the dog was able to leave the hospital in six hours.

In his endeavor to die poor Andrew Carnegie has announced his intention to pension all future ex-presidents and their widows. He hopes by this means to enable the former chief executives to give their entire time to the service of the public without having any financial troubles to bother about. However, it will be noted that he does not include Teddy, the only living ex-president in the terms of his offer. Evidently he figures that Teddy's services to the public would not be worth the price.

ROFF AND COBB CASE ON TRIAL

T. W. GRANT FOUND GUILTY OF EMBEZZLEMENT—L. J. D. YOUNG CONVICTED.

The jury in the case of T. W. Grant charged with embezzlement of funds derived from sale of ties belonging to T. A. Starrett of Bebee, returned a verdict of guilty and assessed his punishment at one year in the penitentiary. His attorneys have not signified whether or not they intend to appeal the case.

This morning J. J. D. Young, at one time principal of the negro school of Ada, was tried on a charge of assault on Anthony Roe, also colored, with intent to kill. The trouble occurred some months ago and Young took a shot at Roe, wounding him. The jury found him guilty and left his punishment to the court.

This afternoon the case of Leon Roff and Aubrey Cobb, charged with grand larceny, was called this afternoon and as great care is being exercised by both sides in the selection of a jury, very little will be done before tomorrow. The case grew out of the loss of two head of cattle by V. A. Malone, who lives a few miles southeast of Roff, and owing to the prominence of the parties involved, the case promises to be of unusual interest and will be fought with vigor on both sides. J. F. McKeel, J. W. Dean and A. M. Croxton are representing the state and Crawford and Bolen the defense.

Limewater for Hogs.

"I have a young sow about four or five months old that is weak in the back, and at times can hardly get up after lying down for awhile. She has a good appetite and is apparently healthy in every other respect. Will you please tell me what the trouble is and what must I do for her? At times, she is all right, and at other times she seems to be very lame in the back."—C. L. B., Oklahoma County, Oklahoma.

Hogs that are raised largely on corn often develop weakness in the hind limbs and weakness in the back similar to that from which your sow is suffering. It is found that this trouble is usually present where there is a lack of ash-making material in the ration. I would recommend that you get some lime—about a peck—and slack it in a barrel of water. Stir this lime-water up daily, and after it settles clear use the lime-water for moistening the feed for your hog. It has been found in many cases that the liberal use of lime-water will cure this trouble in hogs.—W. A. Linklater, A. & M. College, Stillwater.

Auto Owners Must Pay State Tax. Oklahoma City, Nov. 21.—Commissioner Sidney Suggs of the state highway department Wednesday began to send out notices to justices of the peace in the different counties of the state that prosecutions should at once be begun to collect the automobile tax as provided in the road law governing the department. There are approximately 3,000 automobiles in the state and they are required to pay a tax of \$1 a year for maintenance of the highway department. Only about 700 of the whole number have paid the tax thus far. About 900 of the 1,400 in Oklahoma county have paid the tax.

SCHOOL LEVY DEFECTIVE

The initiative question submitted by the legislature, providing for a state levy sufficient to maintain a system of at least five months' common school over Oklahoma failed of passage on November 5, according to Secretary Ben W. Riley of the state election board Tuesday. The question received a good majority of the votes cast upon it, but failed by more than 26,000 to get a majority of all the votes cast at the election.

There was some doubt for a time whether this measure required a constitutional or a straight majority. That doubt no longer exists. The bill, to succeed, must have received a majority of the 253,700 votes cast at the general election, and as it did not do so, is dead.

The Empress favored with a full house, last evening all being attracted by the Maine pictures, and none had any reason to be disappointed. Costly War of Labor Unions.

Chicago, Ill., Nov. 22.—James A. Anderson and Charles Cameron, principals in the kar of arson and murder alleged to have been waged by the two rival local unions of the International Brotherhood of Electrical workers, were given a preliminary hearing in court today. Many sensational disclosures are expected when the two defendants are tried. According to the police, Anderson and Cameron have admitted that they were delegated by their unions to destroy the rival unions by burning buildings in which the rivals were employed. One business agent was killed in the "war" and buildings aggregating \$100,000 in value were burned, it is asserted.

The Garzas held the center of interest as well as the center of the stage last evening at the Majestic. They will appear again this evening. They are the best comedy acrobats on the road and no mistake. Two pictures besides this act will make up a first class program. Written in the Sand and The Wanderer are their titles.

STRANGE FIND AMONG INDIANS OF WASHINGTON

Spokane, Wash., Nov. 22.—Photographs of two sculptured heads, fashioned from stone, are on their way to museums and scientific authorities in many parts of the world on a mission of rare historical interest to the west. Edward S. Curtis, the famous western photographer of Indian faces, believes the stone heads were made by Indians to represent the first two white men who penetrated to the Columbia river, long before the days of Lewis and Clark. The heads were found buried deep below the surface of the earth at the ranch of Samuel Hill, near Maryhill, Wash. Mr. Curtis, who has spent ten years among the Indians, investigated the strange find and has ascertained, at least to his own satisfaction, that superstition caused the red men to fashion the heads as likenesses of the first white men they ever saw. Tradition has it that two Spaniards, more than a century ago, survived a shipwreck during an exploring expedition up the Columbia river, and were adopted by Indians, who believed them to be supernatural beings because of their strange accomplishments and appearance. The features on the heads are distinctly Caucasian.

Wilson Offers Poultry Prize.

State Superintendent of Instruction R. H. Wilson is offering a \$50 prize for the best Barred Plymouth Rock chickens, one cockerel and four pullets, raised in the 1912 poultry contest. The following letter to contestants and others interested is explanatory:

"Permit me to call your attention again to the state poultry contest and the cash prize of \$50 that I have offered for the best pen of Barred Plymouth Rock poultry consisting of one cockerel and four pullets raised and fitted by the contestant during the season of 1912 on the condition that the winning pen shall become my property when the award is made. Each boy and girl taking part in the contest should send an exhibit to Stillwater for the farmers' short course not later than January 10. Each exhibit should have all express charges fully prepaid and should contain the name and address of the exhibitor and should state that it is entered for the 'R. H. Wilson State Poultry prize.'"

AN OPEN FALL

Owing to our open fall a great many of us have neglected to get that new suit we have been promising ourselves, and now old man Winter is upon us, and the worst of it is that he gave us no warning that he was coming until he was here and now we are sore at the world because we are cold, but brace up, for it is not too late yet, for you still have time to give us that order and we will get it out in record time, so you see there is no reason why you should freeze after all.

Remember that we make your suit right here in our shop that it does not have to go out of town to be made and that you can come in and watch it through every stage of construction.

Your suit should be built just as careful as your home and you should be just as much interested in its construction. You watch the construction of your home because you are going to live in it; because you want it built strong and lasting; because you want it to be of a pleasing appearance and because you want it built according to your style. You should be interested in the building of your suit, because you are going to live in it; you want it built strong and lasting; you want it to be of nice appearance and because you want it built according to your style.

Young Woman Who Cleaned Up a Town Both Politically and Socially.

In the December Woman's Home Companion appears an article about Virginia Brooks of West Hammond, Illinois, who has done a great work which is partly described in the following extract from the article:

"Miss Brooks was leading the pleasant life of a Chicago girl in comfortable circumstances when a notice assessing herself and mother two thousand dollars on some vacant lots that they owned in the neighboring town of West Hammond, Illinois, strengthened certain suspicions in her mind that the rulers of that town were not all that they should be. Subsequent investigations confirmed those suspicions to such an extent that Miss Brooks and her mother closed their Chicago home and moved into a little cottage in West Hammond to see what was to be done about it. It appeared that the town, with a voting population of 750, supported fifty-five saloons, with all varieties of objectionable resorts in due proportion. Largely on account of overtaxation, the result of extensive graft, there were in the southern half of the town

but twenty-five houses free of mortgage. Moreover, the ruling powers now proposed that the town be incorporated as a city, for the purpose, Miss Brooks inferred, of enabling the controlling ring still further to increase the burdens of taxation. Under such circumstances, as any reformer could tell you, the proper thing to do was to 'appeal to the people.'

"Unlike many reformers, Miss Brooks knew how to appeal. In this instance 'the people' were mostly Poles. Miss Brooks began by learning their language. She then addressed them at public meetings with such effect that she completely won her impulsive, warm-hearted auditors. Not only was the incorporation project signally defeated, but Miss Brooks had so sturdy an army of Polish voters behind her that she felt strong enough to urge more active reforms.

"Fighting an organized ring is not an easy task, and Miss Brooks had many discouragements; but in the end the decent citizens were thoroughly awakened. A reform ticket was put into the field and won an overwhelming victory, and the last dive in West Hammond, called in derision 'The Virginia Brooks' closed its doors."

NEW YORK INTERESTED IN HYDE TRIAL

New York, Nov. 22.—After a delay of many months, Charles Hiram Hyde former City Chamberlain, is to be called to the bar to answer for the part he is alleged to have played in the great scandal involving the heads of the Carnegie Trust Company, the Joseph G. Robin banking enterprises and the New York political machine. Hyde is under an indictment charging that he accepted a bribe and forced Joseph G. Robin, formerly head of the Northern bank, to aid Joseph B. Reichmann, president of the Carnegie Trust Company, and William J. Cummins, executive chairman of the same bank, by making them a loan of \$100,000 when Robin had stated that to do so meant ruin to his bank. The work of selecting a jury has commenced in the criminal branch of the Supreme Court and it is expected to have everything in readiness to begin the Hyde trial before Justice Goetz the first of the week.

The former City Chamberlain was indicted chiefly on the testimony of Robin. According to Robin, Hyde told him that if he would come through with a loan to the then tottering Carnegie Trust Company, he, Hyde, would see that the municipal deposits were increased in Robin's Northern Bank. If Robin had refused, according to his story, he was 'threatened' with having the city money then in his bank withdrawn. The bank was in no condition to stand such withdrawals, and he had to accede to Hyde's demands, Robin avers.

Hyde's affiliation with Mayor Gaynor, whose administration of the city's affairs is very unpopular in some quarters, has brought forth charges of a political plot that have added to the interest with which his trial has long been anticipated. The former City Chamberlain has been a law partner of Mayor Gaynor. At the time of the Robin bank failures and the crash of the Carnegie Trust Company he mysteriously disappeared, remaining away until the hue and cry over the distribution of the city's funds in the defunct institution was spread from New York city to almost every city in the East. He then returned to the city, alleging illness as the cause of his absence, and was promptly indicted on a charge of swindling the city's millions to benefit his own ends, which constitutes the act of bribery in the eyes of the law.

American Mining Congress.

Spokane, Wash., Nov. 22.—Secretary Colbreath and other officers of the American Mining Congress have arrived to complete arrangements for the fifteen annual session of the body to be held in this city during the first half of next week. The important subjects scheduled for consideration and the prominence of many of the men who will participate combine to give promise of the most notable gathering of its kind ever held in this country.

The congress is a practical organization, devoting itself to economic, administrative and commercial matters, or what might be termed mining politics, rather than to the technical phases of mining. Its annual conventions are held for the purposes of keeping in closer touch with the needs of the mining industry. They provide an open forum for full discussion of the more important subjects through which all persons who have plans for the betterment of mining conditions can be heard.

The location of permanent headquarters of the congress is one of the leading matters to be discussed and acted upon at the coming meeting. Inasmuch as the principal activities of the national body have to do with federal legislation, it is the opinion of many of the members that it would be wise to locate the permanent home of the mining congress in the City of Washington, leaving to the various state chapters the responsibility of looking after state legislation.

Others incline to the view that in Denver or some other city in the west the permanent headquarters should be established. It is proposed to erect a permanent home for the congress, containing a complete mineral exhibit, a complete mining library and other features to make readily available all information about the mines of the country.

YOUNG MOTHERS

No young woman, in the joy of coming motherhood, should neglect to prepare her system for the physical ordeal she is to undergo. The health of both herself and the coming child depends largely upon the care she bestows upon herself during the waiting months. Mother's Friend prepares the expectant mother's system for the coming event, and its use makes her comfortable during all the term. It works with and for nature, and by gradually expanding all tissues, muscles and tendons, involved, and keeping the breasts in good condition, brings the woman to the crisis in splendid physical condition. The baby, too, is more apt to be perfect and strong where the mother has thus prepared herself for nature's supreme function. No better advice could be given a young expectant mother than that she use Mother's Friend; it is a medicine that has proven its value in thousands of cases. Mother's Friend is sold at drug stores. Write for free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature.

NOTES OF SOUTHERN COMMERCIAL CONGRESS

Mrs. Woodrow Wilson, the next "Mistress of the White House," has accepted the position of honorary president of the Woman's Auxiliary of The Southern Commercial Congress.

Mrs. Wilson accepted the position on October 16, in Philadelphia when she and Miss Jessie Wilson held a conference with Dr. Clarence J. Owens, Managing Director of The Southern Commercial congress, relative to the purposes of the Congress and the plans for the Woman's Auxiliary.

Mrs. Wilson is a native of Georgia and is intensely interested not only in the development of the South but also of the nation along lines of general education, vocational education, and in the solution of all economic problems, both urban and rural, as they relate to the home as well as to the business world.

The first congress of the women of the South will be held in Mobile, Alabama, at the time of the fifth annual convention of the Southern Commercial congress and both will be coincident with the opening of the Panama Canal.

The full Cabinet of national officers will be announced in a few days. It will include the following viz. active president; vice presidents; treasurer; general secretary and an executive committee.

President Duncan U. Fletcher will appoint state presidents for the sixteen states included in the territory of the congress. These will in turn appoint their cabinets and county presidents. The county presidents will organize clubs of fifty, one club for a county.

Dr. Owens made the announcement of the selection of Mrs. Wade Hampton for the office of general secretary. Mrs. Hampton is the daughter-in-law of General Wade Hampton, of South Carolina. She will be located in the Southern building and will work in co-operation with Managing Director Owens, of the Congress.

The aims of the Woman's Auxiliary will be the same as for the Southern Commercial Congress. The power of organized effort of the women of the country will be brought to bear on the questions the congress is now endeavoring to solve. A few of these problems are national as Vocational Education in the United States, the investigation of the European systems of co-operative agricultural credit's and the relation of the United States to the Panama Canal and the Latin American countries. This last subject has become international in its scope. With respect to the foregoing, The Southern Commercial Congress is recognized by departments of the Federal government and by many national organizations, as holding a position of national leadership.

Other activities of the Congress are with respect to the following: Morgan Memorial at Panama; Southern Exhibit; Drainage; Uniform Tax Laws; Breaking Up Large Plantations; Publicity; Waterways, Forestry; and Vital Statistics.

The Southern Commercial Congress called the conference on vocational education, held in the Senate office building last December that federated the national federations on this subject and has actively conducted the campaign since.

The Southern Commercial congress called the conference on Rural Credit held in Nashville, Tenn., last April, presided over by Hon. David Lubin, of Rome, Italy, which has resulted in the plan now fully worked out to send a commission to Europe next May to make a study of the systems in operation with the view of solving this question for the American farmer. Many national organizations have given endorsement to the plan. The commission will go from New York, April 26.

The Southern Commercial Congress will hold its fifth congress at a time to enable the thousands of delegates to go to the Canal for the formal opening ceremonies. In these plans the congress has the endorsement of the Department of State of the United States and of the Pan-American Union, Secretary Knox and Director General Barrett are giving active co-operation.

MAY ESTABLISH INDUSTRIES IN THE PENITENTIARY

McAlester, Ok., Nov. 22.—Manufacture of clothing and shoes for inmates of any character of Oklahoma institutions, and also of brooms and supplies of many kinds for these institutions, and making binder twine, rope and cotton bagging is within the possibilities of a gigantic proposition. Warden R. W. Dick is in the city Thursday to take up with Governor Cruce.

While the proposition is not a new one, and Warden Dick has been working on it for a long time, he is gradually perfecting the details and getting it in shape to realize practical results.

Warden Dick Thursday said that he had been conferring with different places relative to securing a plant for the manufacture of twine or rope, and that he had located one in Covington, Ky. It is his opinion that the state would be greatly benefited by purchasing the plant and beginning work at once. He believes that the plant would pay for itself in a year or two. More than \$30,000 profit was made by the Kansas state prison last year in the manufacture of binder

twine and the output was not enough to supply the demand.

It is Warden Dick's idea that much money could be saved the state of Oklahoma by having the convicts make all the shoes and clothing used in the institutions. The state could pay the lowest possible price compared with the cost of manufacture. The convicts would also be paid a reasonable amount for their work and at the end of their sentences have something coming to them more than a suit of clothes and \$5.
